EMINENT

CAPABILITY STATEMENT

Aerospace & Electromechanical Engineering

Concept through DO-160 qualification, certification and production

CORE COMPETENCIES

- Aerospace and electromechanical systems engineering
- RTCA DO-160 qualification support; FAA and EASA certification support
- Product development and production transition
- Engineering management and technical program management
- Configuration management: baselines, CM audits, engineering change control
- Requirements management and verification
- Manufacturing readiness, MRB, RCA/FMEA, DFM
- ISO 9001 / AS9100 QMS process development
- Supplier coordination and cross-functional execution

DIFFERENTIATORS

- 25+ years of engineering experience across aircraft galley insert systems, electromechanical products and satellite systems
- Hands-on technical leadership backed by formal program management training (M.S., Engineering Management, George Washington University)
- Three U.S. patents held by our principal engineer
- Principal-led engagements: senior-level attention on every project, with specialist resources added when the work calls for it

KEY PERSONNEL EXPERIENCE

Aircraft galley inserts, Safran Cabin. Senior engineering leadership on galley inserts and electromechanical products: product development, DO-160 certification, sustaining engineering, MRB and manufacturing readiness.

Precision manufacturing. Engineering management for advanced materials, R&D, prototyping, additive and hybrid manufacturing, and production transition, including ISO 9001 QMS readiness and engineering process improvement.

Satellite systems. Technical program management supporting satellite antenna systems.

COMPANY DATA

Company Eminent LLC
UEI D7VFN2YERPJ9
CAGE 22AE7
Size Small Business
Location Oakton, VA

NAICS CODES

- **541330** Engineering Services (Primary)
- **541715** R&D, Physical/Engineering Sciences
- **541611** Management Consulting
- **541690** Other Scientific/Technical Consulting

PSC CODES

- **R425** Engineering/Technical Support
- **R408** Program Management/Support
